

Mauna Loa displacement

Cristiano Tolomei

Abstract—*Mauna Loa* sineruptive displacement field retrieved by InSAR. Published in *Proc. 15th Int. Semantic Web Conf. (ISWC 2014)* (Eds. Gómez-Pérez, S. Soiland-Reyes, L. Verdes-Montenegro, D. De Roure, and C. Goble “Workflow-Centric Research Objects: First Class Citizens in Scholarly Discourse”, Proceedings of Workshop on the Semantic Publishing, SePublica Crete, Greece 28 May 2012).

Mazurek, C. “ROHub - A Digital Library of Research Objects Supporting Scientists Towards Reproducible Science”. In *Semantic Publishing Challenge of Proc. Extended Semantic Web Conference (ESWC) Crete, Greece 25-29 May 2014*

I. INTRODUCTION

This document provides a paper-style view of the Research Object (RO) “*Mauna Loa displacement*”¹, which is a *release* generated on *06 April 2018*. The RO has been created, managed and preserved via ROHub platform [1]. Please refer to [2] for a general introduction to the RO concept, to [3] for a detailed description of the RO model, and to [4] for more information about ROHub platform.

The RO is of type “*Research Product*”, which represents an aggregation of related resources where research products (i.e., outputs), and the processes used to generate them, play the central role.²

Additionally, this RO has been enriched automatically with the following annotations:

- concepts (most frequently mentioned in the RO): *Mauna Loa*
- domains (fields of knowledge in which the main concepts are commonly used): *volcanology*
- frequent expressions (most frequently mentioned noun phrases): *Mauna Loa displacement Mauna Loa, InSAR technique*
- named entities (most frequently mentioned):
 - Places: *Mauna Loa*

Note that the RO can be cited through its DOI *10.5072/ro-id.VRR2LJOJYQ*.

ACKNOWLEDGMENT

The Research Object was uploaded to ROHub by *Cristiano Tolomei*. ROHub portal development was supported by EVEREST EU project (HORIZON 2020 grant 674907).
