Mauna Loa S1 displacement investigation

Cristiano Tolomei

***Abstract*—Descending data march-April 2018**

I. Introduction

This document provides a paper-style view of the Research Object (RO) "*Mauna Loa S1 displacement investigation*"[1] , which is a *release* generated on *10 April 2018* . The RO has been created, managed and preserved via ROHub platform [1]. Please refer to [2] for a general introduction to the RO concept, to [3] for a detailed description of the RO model, and to [4] for more information about ROHub platform.

The RO is of type *"Research Product", which represents an aggregation of related resources where research products (i.e., outputs), and the processes used to generate them, play the central role.* [2].

Additionally, this RO has been enriched automatically with the following annotations:

- concepts (most frequently mentioned in the RO): *Mauna Loa*
- domains (fields of knowledge in which the main concepts are commonly used): *vulcanologia*
- frequent expressions (most frequently mentioned noun phrases): *Mauna Loa S1 displacement investigation Descending*
- named entities (most frequently mentioned):
  - Places: *Mauna Loa*

Note that the RO can be cited through its DOI *10.5072/ro-id.3HFJPGBU0W*.

Acknowledgment

The Research Object was uploaded to ROHub by *Cristiano Tolomei*. ROHub portal development was supported by EVER-EST EU project (HORIZON 2020 grant 674907).
